

MICHELIN **CEREXBIB 2**

*EXCELLENT PRODUCTIVITY
AND SOIL PROTECTION*

*A high load capacity tyre with low pressure
on the fields, for large harvesting machinery*

MICHELIN CEREXBIB 2

Productivity

Low field pressure

Soil Protection

Traction & Flotation

Excellent load capacity on the fields

Up to 15% larger footprint on the field

- +15% vs IF CFO MICHELIN CEREXBIB
 - +35% vs MICHELIN MEGAXBIB
- A larger, wider footprint, combined with lower pressures supports:
- Better traction and flotation on the field
 - Lower soil compaction resulting in the optimisation of the next crops.

Designed with harvesting machine manufacturers

Tyre developed and designed by the main harvesting machine manufacturers.

Based on tests using 900/60 R32 tyre

Tyre compatible with the central tyre inflation systems

MICHELIN ULTRAFLEX TECHNOLOGIES
Better soil protection
Less compaction
Excellent traction capacity

HIGH TRACTION
Better traction on slopes
Works on wet soil

The MICHELIN CFO+ norm allow to carry more load at 10km/h cyclic on the fields
